

MagAngles

Magswitch™ 90° Angles

Features

- 90° welding have never been this easy to use.
Milwaukee Magswitch™ 90° welding angles provide both inside and outside holding. The easy on / off of Magswitch™ eliminates the need to pry off the angle and allows you to keep the angle free of debris
- Precise positioning, holds flat and pipe material
- Additional MagSquares can be added for greater strength
- Available in 2 sizes (each angle has 2 magnets)
