

ELEVATOR FOR CONSTRUCTION SITE

ETT 250

Technical advantages :

Equipped with inflatable wheels and 2 pivoting wheels with brakes at the back, *the elevator ETT 250* can be used everywhere.

This elevator is conceived with strong frame and epoxy finishing. Its hydraulic group allows operators to use it very easily and brings security and comfort.

Ergonomic, easy to handle and transport heavy loads.

This aim of *the elevator ETT 250* is to go everywhere, you can go through the doors without danger, it goes in very small space.

Very polyvalent, you can adjust the forks and transport half pallets.

The *elevator ETT 250* can be loaded in cargo van or delivery van, you can disassemble the legs and the forks which helps you to gain space. Equipped with a mechanism to stop the carriage, you can transport the elevator without doing damages.

Specifications :

- Maximum load : 250 kg
- Maximum lifting height : 90 to 850 mm
- Inflatable wheels \varnothing 200 mm ⁽¹⁾
- Size of forks (L x l x H) : 775 x 70 x 50 mm
- Space between forks : 175 to 400 mm
- Adjustable forks : from 315 to 540 mm
- Space between legs : 625 mm
- Outside size (L x l x H) : 1190 x 783 x 1250 mm
- Total height : 1325 mm
- Net weight : 77 kg

⁽¹⁾ : On request rigid wheels

Item code 300 840

The elevator *ETT 250* is the material you must need for building site, it's the best and the only material in the world.

Equipped with inflatable wheels and 2 pivoting wheels with brake you can use it everywhere : grass, gravels, ground, lands...

Thanks to his movable forks and legs, you can stock it everywhere : in your van, in a small place.

The elevator ETT 250 is used for the following applications : in workshop to move heavy loads, to move half pallet, to move loads in your construction site.

Key points :

Inflatable wheels \varnothing 200 mm, including 2 pivoting wheels with brake

Manual hydraulic group, very easy to use, you pump with the arm and you release the handle to lift down

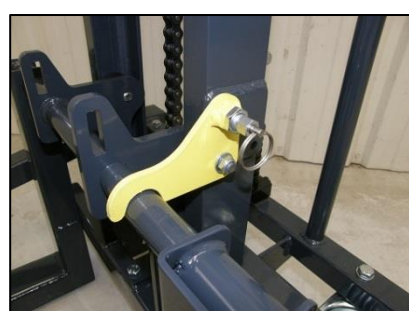

Very strong carriage guides with 4 rollers

Adjustable forks, you can move it and you can disassemble it very quickly

Movable legs, you don't need tool to do it and you gain space in your van

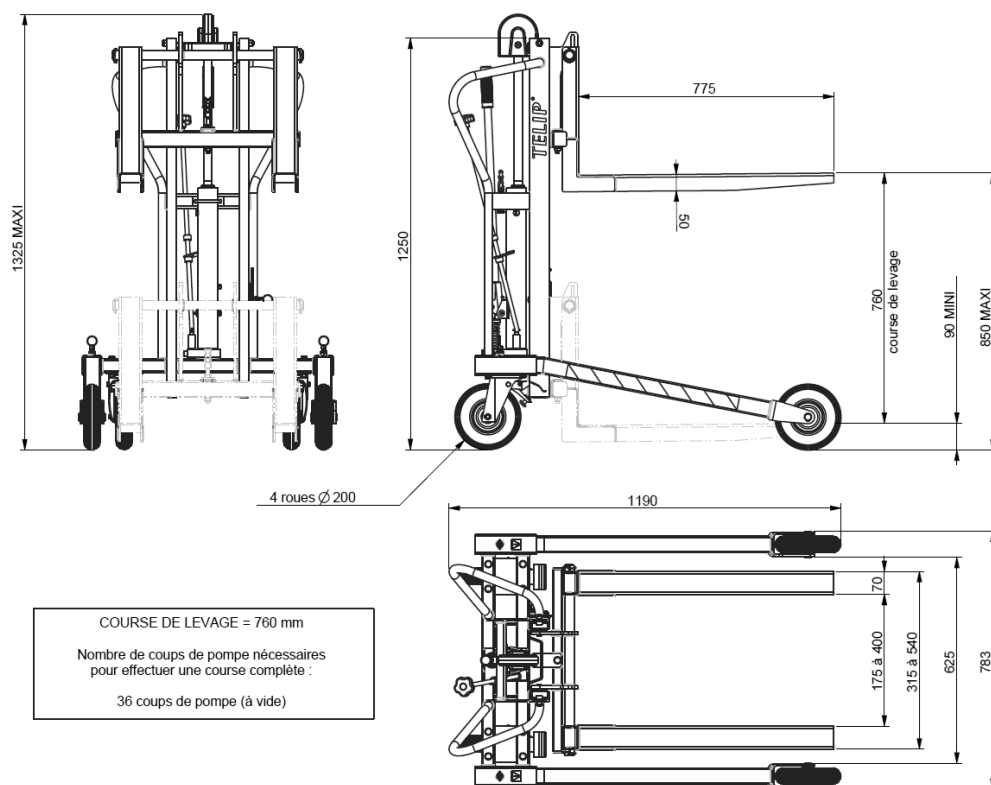

Mechanism to stop the carriage when you transport the elevator in a van, no damages

Outside size :

Number of pumps : 36

You can lift up to 700 mm
